🐙 noobmaster-ru • 📧 @noobmaster_rus

Education

Lomonosov Moscow State University

Faculty of Computational Mathematics and Cybernetics

Moscow

Aug 2022 – Present

Relevant Coursework

- Deep Learning School (DLS) — MIPT School of Deep Learning

Work Experience

X5 Tech (Russia's largest grocery retailer)

ML Engineer

Moscow

Apr 2026 – Present

- Developing a RAG system for legal document analysis to help X5 Tech save up to RUB 19B annually.

Projects

Placa

Developer

Moscow

Jul 2024 – Dec 2024

- Built a Google Sheets analytics service for Wildberries sellers using Google Apps Script and Wildberries API integration.
- Implemented a self-service Google Sheets template: copy → paste token → click control-panel buttons → daily automatic data loading.
- The solution enables 300 sellers to receive up-to-date advertising spend data on a daily basis.

WB Parser / Telegram Mini App

Python Developer

Moscow

Jul 2025 – Sep 2025

- Developed a Wildberries search parser with filtering by organic search position.
- Delivered the product as a Telegram Mini App with a database backend; reached 220 active users.

AxiomAI

Python Developer

Moscow

Oct 2025 – Apr 2026

- Built and deployed a production Telegram bot with OpenAI API, Redis, and Docker.
- Improved response speed and reduced manual manager workload in business communications.

Skills, Activities , Interests
